EUCLID TRAILER VALVES

PART NUMBER	DESCRIPTION
E-AU700	Trailer P.A.R.C. Valve (Park and Air Reservoir Control)

FEATURES & BENEFITS

- Anti-compound function prevents possibility of full emergency and service brake application simultaneously
- Ideally suited for single and multi-axle configurations
- Easy overhaul
- Replaces CA700
- Inline filter
- Colour Coded for valve identification and maintenance simplicity

PART NUMBER	DESCRIPTION
E-AU400	Trailer Relay Valve

FEATURES & BENEFITS

- "6" Port Valve. 3 axles in sub ADR38/02 times
- Pressure predominance - provides rapid system 'take-up' by amplifying foot valve pressures
- Provides brake "balance" between truck and trailer during low pressure brake applications
- Assists in even and improved brake lining life
- Easy overhaul
- Replaces CA400
- Colour Coded for valve identification and maintenance simplicity

MERITOR

August 2014

DID YOU KNOW?

Meritor was previously known as Rockwell for approximately 90 years. It underwent a name change to become a stand alone company - Meritor Automotive - in 1997. In the year 2000, Meritor merged with Arvin Industries to form ArvinMeritor. Multi year transformation occurred and the 3R Strategy was launched - Rationalise, Refocus and Regenerate. Product innovations, international expansion and technical advancements occurred over the next 10 years and in 2011, ArvinMeritor officially became Meritor to concentrate its focus to the commercial vehicle and industrial business.

The Meritor name and logo symbolize the quality, integrity, experience, longevity and outstanding service that are the core attributes of our enterprise. The name Meritor was derived from the Latin word "meritum", meaning service, worth and benefit. The powerful logo, a stylized bull with wings, represents Meritor's core attributes of power, stability, integrity and agility. It is a mythological and magical creature which, in flight, symbolizes speed to serve customers no matter where in the world they do business. 

MERITOR GOES TO THE RACES

Every summer in Europe, Meritor participates in the Fédération Internationale de l'Automobile (FIA) truck racing season by hosting customers for an exclusive, behind-the-scenes experience at nine major racing and six trial events. FIA events in Italy, Spain, France, Germany, Austria, the Czech Republic and Hungary as well as a national race in the United Kingdom present valuable opportunities for Meritor to interact with everyone from top fleet executives to drivers. Meritor displays the race trucks and point out key features and technological changes in a relaxed, fun setting.

Customers at these events can see experienced drivers handle the trucks - equipped with Meritor's special racing axles and brakes in a high performance setting.
